

Dear Colleagues;

Special Issue Invitation – Materials Letters Journal

As announced earlier, in order to receive maximum outreach for the research activity related to **energy materials**, that was presented in ANEH 2018 event, we are glad to invite you for submission of your original research work to the special issue in **Materials Letters** journal (Elsevier Publishers). This special issue is named “**Materials for Energy Technologies**”. Please go through the attached document – call for papers <https://www.journals.elsevier.com/materials-letters/call-for-papers/special-issue-materials-for-energy-technologies>

- This special issue mainly focuses on the area of **energy materials**. Kindly, check the scope of your research work to be with in the broad theme of the special issue before you submit your manuscript.
- For your convenience, the screen shots for step wise submission of the manuscript to Materials Letters Special issue is provided. Kindly follow the steps for a successful submission.
- In-line with the journal policy, the number of articles for this special issue is limited. So, kindly submit your articles on or before **October 31, 2018**.

Instructions for submission:

1. Before the submission of your manuscript, it is mandatory that you read the “instructions to authors” carefully, which is furnished in the Materials Letters journal homepage <https://www.elsevier.com/journals/materials-letters/0167-577x/guide-for-authors>
2. Go to **Materials Letters** login page. Register your account - username and password (if you don't have account in science direct journal)
3. The submission website for this journal is located at: <https://eeslive.elsevier.com/mlblue/default.asp>
4. To ensure that all manuscripts are correctly identified for inclusion into the special issue the authors must select “**VSI: Materials for Energy Technologies**” when they reach the “**Article Type**” step in the submission process.
5. In the cover letter, please mention your oral/poster number. This is for internal reference only. If you don't have this number, please mention your title of the presentation.
6. Submission deadline – **October 31, 2018**.

Special Instruction:

Mere presentation of your work at the conference does **not guarantee** your submission for publication (as with other special issues). **Materials Letters** journal operates a single blind review process. All contributions will be initially assessed by the editorial office followed by editor for suitability of the manuscript for the journal. Papers deemed suitable are then typically sent to a **minimum of two independent expert reviewers as like regular submission** to assess the scientific quality of the paper. The Editor is responsible for the final decision regarding acceptance or rejection of articles. **The Chief Editor's decision will be final.**

The Materials letter journal is letter type. It is mandatory to follow the format, hence check the **word, figures, page number limit**.

All the best for your submission.

Best wishes

Dr. Sudhagar Pitchaimuthu

Guest Editor – Materials Letters Special Issue

Dr. Sathish Marappan

Guest-Editor - – Materials Letters Special Issue

Note:

- Due to huge volume of emails, we are not able to respond your queries immediately. Our conference local organising committee will answer you based on the priority and urgency of the query.
- The instruction for authors and submission to the journal is available in journal website. So kindly avoid queries on “How to Submit”.

The notification for special issue in Materials Today: Proceedings will be announced in next email.
